# Know Before You go

Pedal assisted E-bikes are only allowed if motor is less than 750 watts and engaged only while pedaling. E-bikes with throttles are not permitted.

Be prepared. Falling rocks can cause injuries, flat tires, and crashes.

Avalanches are possible especially with rapid temperature changes. Pay attention and keep an ear out. Don't stop under gullies or snowfields and plan to start and finish before the warmest part of the day.

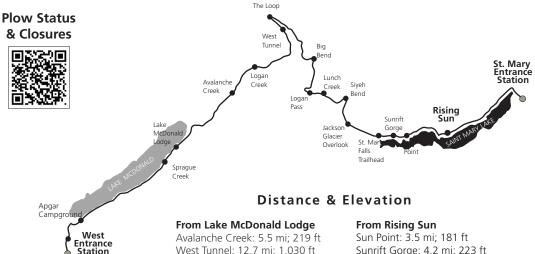

Wildlife on the road can cause long delays. Do not approach wildlife or try to encourage their progress.

High speed riders and blind corners can cause collisions. Stay in your lane and stay in control.

Changing temperatures could lead to hypothermia if you're not prepared. Carry layers, gloves, and waterproof gear. Be prepared for changing mountain weather.
